000-968

IBM

High-End Disk for Open Systems V2

<http://www.ipass4sure.com/exams.asp?examcode=000-968>

The 000-968 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 000-968 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 000-968 exam is very challenging, but with our 000-968 questions and answers practice exam, you can feel confident in obtaining your success on the 000-968 exam on your FIRST TRY!

IBM 000-968 Exam Features

- Detailed questions and answers for 000-968 exam
- Try a demo before buying any IBM exam
- 000-968 questions and answers, updated regularly
- Verified 000-968 answers by Experts and bear almost 100% accuracy
- 000-968 tested and verified before publishing
- 000-968 exam questions with exhibits
- 000-968 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like 000-968 exam are now continuously updating and accepting this challenge is itself a task. This 000-968 test is an important part of IBM certifications. We have the resources to prepare you for this. The 000-968 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 000-968 Test and save time and money while developing your skills to pass your IBM 000-968 Exam? Let us help you climb that ladder of success and pass your 000-968 now!

QUESTION: 1

An international company has a heterogeneous IBM storage environment with two IBM DS8700 systems in a Metro Mirror relationship. They also have a virtualized environment with two SVC clusters in a Global Mirror relationship. The storage administrator complains about the monitoring of copy services. Which solution should the IBM storage specialist propose for this pain point?

- A. System Storage Productivity Center
- B. Tivoli Storage Productivity Center for Replication
- C. Tivoli Storage Productivity Center for Disk
- D. DS8000 Storage Manager

Answer: B

QUESTION: 2

A UNIX customer has a Symmetrix DMX that has crashed three times in the past six months, causing data loss. The customer is shopping for an enterprise storage solution to provide point-in-time copy functionality without a fixed relationship to its primaries. Which IBM solution best meets this customer's requirements?

- A. IBM System Storage DS8700 and VolumeCopy
- B. IBM System Storage DS8700 and FlashCopy
- C. IBM System Storage DS8700 and FlashCopy with the NoCopy option
- D. IBM System Storage DS8700 and FlashCopy with the Persistent option

Answer: B

QUESTION: 3

A customer asks for the thermal load (BTU/hr) to determine whether their existing cooling system will support the IBM System Storage DS8000. Where can the sales representative find this information?

- A. IBM System Storage DS8000: Introduction and Planning Guide
- B. IBM DS8000 Interoperability Matrix on the support page on the web
- C. IBM System Storage DS8000: User's Guide
- D. IBM System Storage DS8000: Solution Assurance Guide

Answer: A

QUESTION: 4

A customer has an IBM System Storage DS8100 with 128 DDMs and needs to add additional capacity. What must be verified by the Business Partner during the visit to the computer room?

- A. the space for the upgrade to a DS8700
- B. the space on the left of the DS8000 for an expansion frame
- C. the space on the right of the DS8000 for an expansion frame
- D. the space to install additional DDMs in the base frame

Answer: C

QUESTION: 5

A customer has no available floor space for expansion and room for only one disk enclosure pair in their DS8700. Four disk enclosure pairs are required to meet the current I/O needs of a data warehousing application. They are only utilizing 10% of their total capacity. Another application workload needs to be added to the system but requires two disk enclosure pairs. The customer is considering SSD and Easy Tier. Which of the following is the primary function of Easy Tier?

- A. reduce power consumption per unit of storage
- B. balance the total workload with other DAs
- C. automatically moves hot spots to the appropriate resource
- D. SANtiering permits more flexibility by adding additional data paths

Answer: C

QUESTION: 6

A customer requires an infrastructure to support disaster recovery of critical applications between two remote data centers. One data center is in Tokyo and one is in Beijing. The customer's Recovery Point Objective (RPO) requires a six-hour window for a bandwidth of 100 MB/s and a new storage system for a total of 4 TB of data. They estimate 100 MB of new data produced hourly. What data synchronization method would be recommended to meet the requirements?

- A. Metro Mirror
- B. FlashCopy

- C. Global Mirror
- D. Snapshot

Answer: C

QUESTION: 7

A current IBM System Storage DS8000 open systems customer needs a temporary copy of data that will be needed for only 12 hours. Which DS8000 function best satisfies this requirement?

- A. Multiple RelationshipFlashCopy
- B. IncrementalFlashCopy
- C. FlashCopy SE
- D. Data SetFlashCopy

Answer: C

QUESTION: 8

A customer needs a remote data copy, data migration, and off-site backup solution. The solution cannot impact application performance. The sites are over continental distances. Which characteristic of DS8700 Global Mirror makes it a good fit for this customer?

- A. it provides synchronous mirroring on both sides
- B. it can be implemented withoutFlashCopy volumes at the target site
- C. with Global Mirror, the Metro Mirror functions can be used over continental distances
- D. it has almost no impact on application performance because of its extremely short and adjustable coordination time

Answer: D

QUESTION: 9

An IBM Business Partner suggests an IBM System Storage DS8000 to a customer with a SAN that is now configured with an EMC Symmetrix subsystem disk. The customer wants to determine if new HBAs and software upgrades are needed on the servers if the EMC storage is replaced by the DS8000 What document must be carefully read to help address the customer's concerns?

- A. IBM System Storage DS8000: Host Systems Attachment Guide
- B. DS8000 Interoperability Matrix
- C. IBM System Storage DS8000: Introduction and Planning Guide
- D. IBM System Storage Solution Handbook

Answer: B

QUESTION: 10

A customer using an IBM System Storage DS8700 is facing performance problems. After the analysis by the technical specialist, the diagnosis indicates that the cache hits may be improved by a cache upgrade. How can the system be monitored in order to check the benefits of the cache upgrade?

- A. using the "vmstat" command on the AIX servers connected via SAN to the DS8700 system
- B. look at the IOPS using the DS8700
- C. reading the performance reports via Tivoli Storage Productivity Center for Disk
- D. generating reports using the TotalStorage Expert

Answer: C

QUESTION: 11

A customer has purchased three IBM System Storage DS8700 systems and would like to have their administrators trained. Which training alternative provides the necessary training with the least financial impact?

- A. purchase the training CD for the disk subsystem and have the staff do self-paced training
- B. have the IBM Service Support Representative perform the training
- C. contact IBM Education Services for an onsite training class
- D. send one person at a time to an IBM training session

Answer: C

QUESTION: 12

A customer's SAN environment has undergone significant growth over the past two years. They have also suffered a high turnover rate with administrative personnel. The customer has asked a storage specialist for help in documenting and understanding their changing SAN environment.

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
