000-979

IBM

Power Systems with POWER7 and IBM I Technical Sales Skills - v1

<http://www.ipass4sure.com/exams.asp?examcode=000-979>

The 000-979 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 000-979 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 000-979 exam is very challenging, but with our 000-979 questions and answers practice exam, you can feel confident in obtaining your success on the 000-979 exam on your FIRST TRY!

IBM 000-979 Exam Features

- Detailed questions and answers for 000-979 exam
- Try a demo before buying any IBM exam
- 000-979 questions and answers, updated regularly
- Verified 000-979 answers by Experts and bear almost 100% accuracy
- 000-979 tested and verified before publishing
- 000-979 exam questions with exhibits
- 000-979 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like 000-979 exam are now continuously updating and accepting this challenge is itself a task. This 000-979 test is an important part of IBM certifications. We have the resources to prepare you for this. The 000-979 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 000-979 Test and save time and money while developing your skills to pass your IBM 000-979 Exam? Let us help you climb that ladder of success and pass your 000-979 now!

QUESTION: 1

For what situation must a customer be prepared when using encrypted ASPs?

- A. Backups of the encrypted ASP take longer to process.
- B. Backups require a tape device which supports encryption.
- C. Tape media used for backups of encrypted data must be of a certain type.
- D. Data stored in an encrypted ASP consume 10-20% more space than in a non-encrypted ASP.

Answer: B

QUESTION: 2

An IBM i customer needs highly available disk storage on their new Power 750. The following requirements have been determined:

Loop level redundant RAID-5

No disk in the CEC

Six 70GB Solid State Disks (SSDs)

Sixty six 284GB SAS disks (large form factor)

What design elements must be considered?

- A. SSD requires at least 1.5MB write cache
- B. SSD and traditional disks must be in separate loops
- C. SSD and traditional disks must be in different drawers
- D. SSD and traditional disks must be on different controllers

Answer: D

QUESTION: 3

A client has expressed an interest in a new POWER7 system, and has also expressed concern about application availability. They need zero data loss and an outage window of less than 15 minutes. Which of the following will assure the most redundancy and quickest recovery time?

- A. Configure an iASP and place 2 system units on the same I/O loop.
- B. Configure a duplicate system in a second location with Cross-SiteMirroring between the systems.
- C. Configure a duplicate system in a second location with asynchronous remote journaling between the systems.
- D. Configure SAN storage and place the flash copy disk in a second location connected to a second system unit.

Answer: B

QUESTION: 4

A customer running IBM i 6.1 on a system with a POWER6 processor wants a small guest IBM i partition to verify upcoming changes to an application. Which of the following is required to create this partition?

- A. Available disk space on hosting partition
- B. Additional license keys for hosted partition
- C. Licensed program 5761-SS1 option 68, IBM i Guest Enablement
- D. An available port on the Host Ethernet Adapter for LAN console

Answer: A

QUESTION: 5

A customer has a 4-core Power 720 with 4 PCIe adapters in the CEC, and wants to add another adapter to the system. Which of the following must be considered?

- A. An expansion drawer must be added
- B. It can be placed in an unused GX slot
- C. A low-profile adapter must be selected
- D. The 2-slot PCIe expansion riser must be ordered

Answer: C

QUESTION: 6

A customer with a non-partitioned Power Systems server plans to add three additional LPARs, all running IBM i. No processor activations are needed for these new workloads. The only additional software required is WebSphere Application Server (WAS), WebSphere Commerce suite, and Tivoli applications, each running in their own partition. How many additional IBM i base license authorizations are needed for the new partitions?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

QUESTION: 7

In a SAN environment, which disk protection method provides the most resiliency against failure?

- A. RAID-0 (striping)
- B. RAID-1 (mirroring)
- C. RAID-5 (device parity)
- D. RAID-10 (mirrored arrays)

Answer: D

QUESTION: 8

A client has sent a current system configuration, but the listing shows several items with a question mark (?) next to them. What does this indicate?

- A. The hardware was not contacted on the last IPL of the system.
- B. The hardware is not supported at the current level of IBM i.
- C. The hardware was not detected at the time the rack configuration was printed.
- D. The hardware listed does not have current microcode levels uploaded and installed.

Answer: C

QUESTION: 9

A customer has developed a new Domino application and is considering deploying it on one or more Power 720 systems which run IBM i and utilize external storage. How can the amount of memory and the number of disk arms required to support the application be estimated?

- A. Use the IBM Systems Workload Estimator to do a system sizing.
- B. Collect Domino STATREP data and process it using DiskMagic(R).
- C. Use Tivoli's TADDM (Tivoli Application Dependency Discovery Manager) to size the system.
- D. Import performance collection data into eConfig for correct disk arm and memory configuration.

Answer: D

QUESTION: 10

When planning to encrypt an independent ASP (iASP), what must be considered?

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of **Professional & Certified Experts** available via support.
- Free **90 days** updates to match real exam scenarios.
- **Instant Download Access!** No Setup required.
- Price as low as **\$19**, which is 80% more **cost effective** than others.
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (**Android, iPhone, iPod, iPad**)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- **Guaranteed Success.**
- **Fast**, helpful support **24x7**.
