IBM

IBM WebSphere Business Modeler Advanced V6.1, Business Analysis and Design

http://www.ipass4sure.com/exams.asp?examcode=000-992

The 000-992 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 000-992 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 000-992 exam is very challenging, but with our 000-992 questions and answers practice exam, you can feel confident in obtaining your success on the 000-992 exam on your FIRST TRY!

IBM 000-992 Exam Features

- Detailed questions and answers for 000-992 exam
- Try a demo before buying any IBM exam
- 000-992 questions and answers, updated regularly
- Verified 000-992 answers by Experts and bear almost 100% accuracy
- 000-992 tested and verified before publishing
- 000-992 exam questions with exhibits
- 000-992 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like 000-992 exam are now continuously updating and accepting this challenge is itself a task. This 000-992 test is an important part of IBM certifications. We have the resources to prepare you for this. The 000-992 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself.Want to take advantage of the Real 000-992 Test and save time and money while developing your skills to pass your IBM 000-992 Exam? Let us help you climb that ladder of success and pass your 000-992 now!

Question: 1
A business analyst is creating an Activity Cost report. The analyst needs to display a priority level in the final report on the title page. The priority level is not part of the activity cost data source and the analyst wants to add it manually every time the report generates. Which element should be added to the report template to support this functionality?

A. Dynamic text label
B. Data field
C. Parameter field
D. Special field formatter

Answer: C

Question: 2
Why would a business analyst want to create a query with a criterion specified?

A. To use expressions to get information on the specific model elements of interest
B. To obtain information about business items and business item specifications
C. To produce a list of tasks from diagrams in scope of the whole project
D. To produce a list of attributes and types from diagrams in the project

Answer: A

Question: 3
Several process owners are planning a meeting to exchange information about their respective processes. They need to be able to communicate the sequence of steps in their own process as well as how their processes relate to other processes. Which predefined report should they bring to their meeting?

A. Process details report
B. Process procedure report
C. Process summary report
D. Process specification report

Answer: B

Question: 4
A bank is starting a new loan process that will receive real estate loan applications from a group of partner banks. This is a new business process and they want to measure the performance of this new venture against its commercial loan process. Why is it critical to involve stakeholders of a business process when defining business measures in a modeling project?
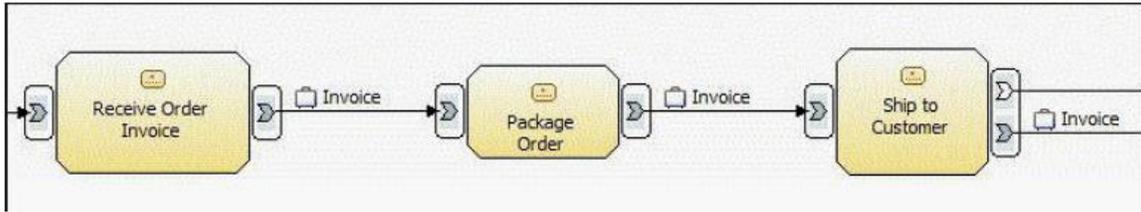

A. To assure accurate Return on Investment (ROI) information for the analysts
B. To verify that the process simulation results comply with industry norms and government regulations
C. To define the business measures and review to determine goal achievement and set new targets
D. To achieve stakeholder approval that roles and resources are properly represented in the model

Answer: C

Question: 5
Click the Exhibit button.

It is desired to define a business measure that will display the maximum duration it takes to ship an order to the customer from the customer's perspective. For the portion of the business process shown in the exhibit, how should this duration metric be defined in WebSphere Business Modeler?

A. Create a Key Performance Indicator (KPI) metric for task 'Ship to Customer'. Specify a function of Maximum for this measure across multiple runs of the process.
B. Create a KPI metric for the three tasks shown in the business process. Specify a function of Maximum for this measure across multiple runs of the process.
C. Create an Instance metric for task 'Ship to Customer'. Specify a function of Maximum for this measure across a single run of the process.
D. Create an Aggregate metric for task 'Ship to Customer'. Specify a function of Maximum for this measure across multiple runs of the process.
E. Create an Aggregate metric for the three tasks shown in the business process. Specify a function of Maximum for this measure across multiple runs of the process.

Answer: E

Question: 6
What are two types of business measures that a user can specify in WebSphere Business Modeler? (Choose two.)
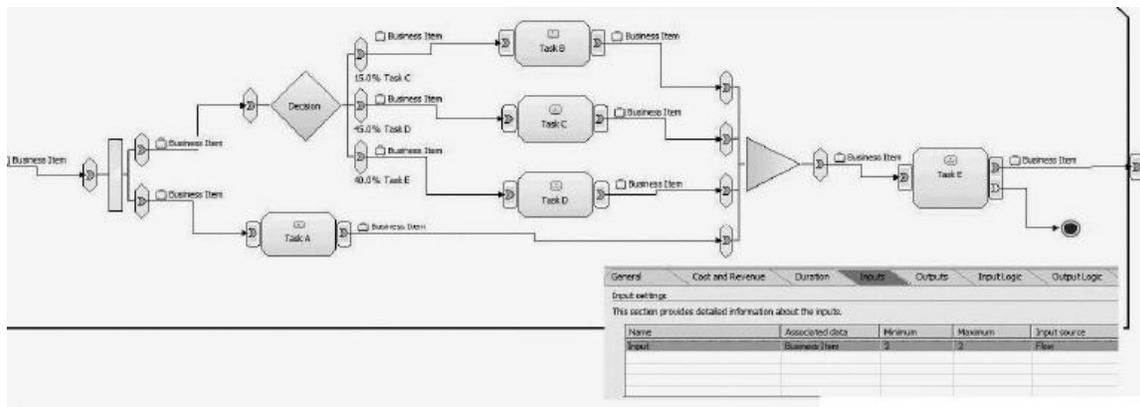

A. Key Performance Indicators
B. Costs
C. Alerts
D. Dimensions
E. Metrics

Answer: A, E

Question: 7
Click the Exhibit button.
Simulation is being performed on the process shown in the exhibit. Task E input criteria is set to accept a Minimum and Maximum of two tokens, as shown. Based on the process syntax, how many times will Task E be instantiated if 100 tokens enter the fork?
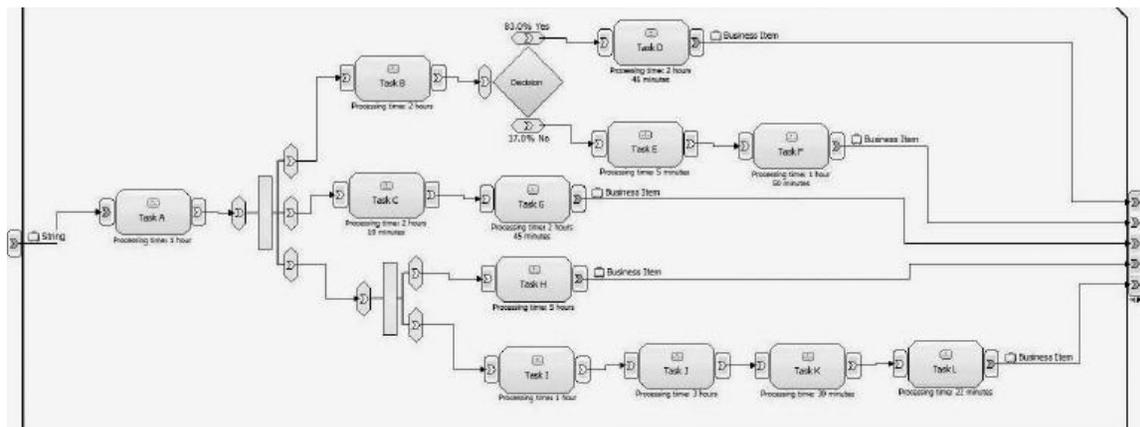

A. 100
B. 200
C. Unknown, the decision is inclusive, and multiple combinations of true paths could be taken for each token.
D. Task E will never be instantiated as the input constructs of Task E do not support multiple input possibilities.

Answer: A

Question: 8
Click the Exhibit button.
A process is being modeled for simulation as shown in the exhibit. The proper placement of stop and end nodes is now required. Assuming there are no delays due to resource availability, after which task(s) should stop nodes be added and connected to?

A. Task D
B. Task F
C. Task H
D. Task D and Task F
E. Task H and Task L

Answer: C

Question: 9
If the "Use resources' time required as a task processing time" option is selected as user preference for running the simulation, what is the processing time of each activity equal to?

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of Professional & Certified Experts available via support.
- Free 90 days updates to match real exam scenarios.
- Instant Download Access! No Setup required.
- Price as low as $19, which is 80% more cost effective than others.
- Verified answers researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (Android, iPhone, iPod, iPad)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- *Guaranteed Success*.
- **Fast**, helpful support 24x7.
