1T6-540

Network-General

Advanced Troubleshooting with InfiniStream Network Mgmt

The 1T6-540 practice exam is written and formatted by Certified Senior IT Professionals working in today's prospering companies and data centers all over the world! The 1T6-540 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 1T6-540 exam is very challenging, but with our 1T6-540 questions and answers practice exam, you can feel confident in obtaining your success on the 1T6-540 exam on your FIRST TRY!

Network-General 1T6-540 Exam Features

  - Detailed questions and answers for 1T6-540 exam
  - Try a demo before buying any Network-General exam
  - 1T6-540 questions and answers, updated regularly
  - Verified 1T6-540 answers by Experts and bear almost 100% accuracy
  - 1T6-540 tested and verified before publishing
  - 1T6-540 exam questions with exhibits
  - 1T6-540 same questions as real exam with multiple choice options

Acquiring Network-General certifications are becoming a huge task in the field of I.T. More over these exams like 1T6-540 exam are now continuously updating and accepting this challenge is itself a task. This 1T6-540 test is an important part of Network-General certifications. We have the resources to prepare you for this. The 1T6-540 exam is essential and core part of Network-General certifications and once you clear the exam you will be able to solve the real life problems yourself.Want to take advantage of the Real 1T6-540 Test and save time and money while developing your skills to pass your Network-General 1T6-540 Exam? Let us help you climb that ladder of success and pass your 1T6-540 n

Question: 1
Applications that use ephemeral ports on both sides of a connection are difficult to mine, because:

A. The ephemeral ports cannot be predicted
B. They all use the same port, TCP/1024
C. The well-known ports cannot be predicted
D. The ephemeral ports can be predicted but the port pairings are always different

Answer: A

Question: 2
Mining FTP frames for both the Control and Data connections is difficult, because:

A. The server listens on TCP/20 and on ephemeral addresses that are difficult to predict.
B. The server listens on TCP/21 and multiple addresses that cannot be predicted.
C. The server listens on TCP/21 and ephemeral ports that are difficult to predict.
D. Many implementations of FTP exist that use varying well-known ports.
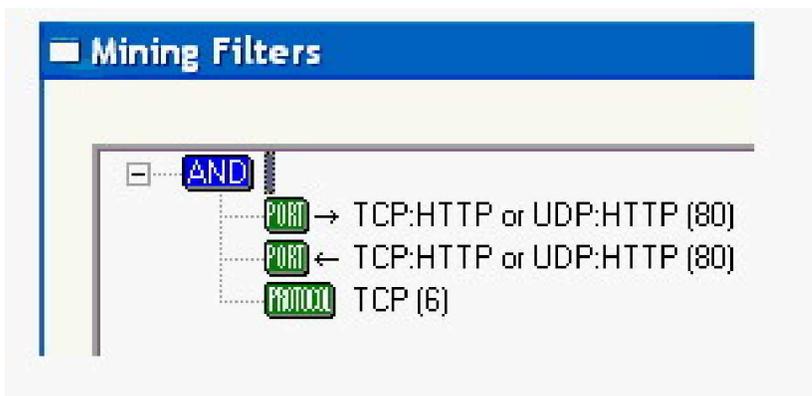

Answer: C

Question: 3
Which of the following is NOT typically associated with network security auditing?

A. Inspection of passwords
B. Examining a network for signs of misuse
C. Troubleshooting network application efficiency
D. Looking for conformance to policy

Answer: C

Question: 4
Consider this illustration of a data mining filter. What is wrong with it?

A. The filter only allows packets that are sent to HTTP servers on their well-known port. It would only show commands without replies. This filter is incomplete.
B. The filter only allows packets that are both to and from the well-known port TCP/80 (HTTP). Both source and destination port cannot be 80. Nothing would pass the filter.
C. It would also allow UDP packets to and from port 80 (HTTP), which does not make sense, since HTTP is a TCP-based protocol.
D. Nothing. It will capture normal data to and from TCP/80 (HTTP) servers.

Answer: B

Question: 5
The easiest way to identify data for further analysis is to _____.

A. create an alias
B. group multiple protocols together
C. sort on port number
D. select all ephemeral ports

Answer: C

Question: 6
A one to many relationship is indicative of:

A. Backdoors
B. Clients sending email to a relay server
C. Password guessing
D. Peer-to-Peer

Answer: D

Question: 7
Consider this mining filter. Which description most accurately describes what it does?

A. It includes all packets to and from network 192.168.1.0/24.
B. It includes all packets that have sources and destinations within network 192.168.1.0/24.
C. It includes all packets that are not to or from network 192.168.1.0/24.
D. Nothing. No packets would pass this filter.

Answer: C

Question: 8
 Time duration and speed are _____.

A. primary limitations of mining and analysis
B. not relevant to InfiniStream
C. only related to Expert analysis
D. relevant, but secondary issues

Answer: A

Question: 9
For testing, it is useful to convert your _____ into _____.

A. data / units of measurement
B. hypothesis / an if-then statement
C. hypothesis / a conclusion
D. conclusion / if-then statement

Pass4sure Certification Exam Features;

- Pass4sure offers over **2500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **120** Global Certification Vendors Covered.
- Services of Professional & Certified Experts available via support.
- Free 90 days updates to match real exam scenarios.
- Instant Download Access! No Setup required.
- Price as low as $19, which is 80% more cost effective than others.
- Verified answers researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (Android, iPhone, iPod, iPad)
- **No authorization** code required to open exam.
- **Portable** anywhere.
- *Guaranteed Success*.
- **Fast**, helpful support 24x7.
