The 70-336 practice exam is written and formatted by Certified Senior IT Professionals working in today’s prospering companies and data centers all over the world! The 70-336 Practice Test covers all the exam topics and objectives and will prepare you for success quickly and efficiently. The 70-336 exam is very challenging, but with our 70-336 questions and answers practice exam, you can feel confident in obtaining your success on the 70-336 exam on your FIRST TRY!

Microsoft 70-336 Exam Features

- Detailed questions and answers for 70-336 exam
- Try a demo before buying any Microsoft exam
- 70-336 questions and answers, updated regularly
- Verified 70-336 answers by Experts and bear almost 100% accuracy
- 70-336 tested and verified before publishing
- 70-336 exam questions with exhibits
- 70-336 same questions as real exam with multiple choice options

Acquiring Microsoft certifications are becoming a huge task in the field of I.T. More over these exams like 70-336 exam are now continuously updating and accepting this challenge is itself a task. This 70-336 test is an important part of Microsoft certifications. We have the resources to prepare you for this. The 70-336 exam is essential and core part of Microsoft certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real 70-336 Test and save time and money while developing your skills to pass your Microsoft 70-336 Exam? Let us help you climb that ladder of success and pass your 70-336 now!
Section 1: See Five (1 to 12)
Details: Topic 1, Contoso Ltd. Case B Overview

General Overview
Contoso, Ltd. is an international manufacturing company that has 30,000 users. Contoso has the following departments: sales, research, marketing, human resources, executive, manufacturing, and legal. The sales department has 2,000 users. All of the users in the sales department are located in the United States. The research department has 3,000 users. All of the users in the research department are located in Europe.

Physical Locations
Contoso has two main offices. The offices are located in Houston and Frankfurt. Each office has 15,000 users. The offices connect to each other by using an MPLS network. Each office connects directly to the Internet.

Existing Environment Lync Server Infrastructure
Contoso has a Lync Server 2010 infrastructure that only uses internal instant messaging (IM) and presence. The infrastructure contains a single Enterprise Edition Front End pool that services all of the users. Contoso uses a SIP domain of contoso.com for all of the users. Client computers have either Microsoft Office Communicator 2007 R2 installed or Microsoft Lync 2010 installed.

Before deploying Lync Server 2013 and migrating the users to Lync Server 2013, you implement a small pilot project to test the functionality of Lync Server 2013.

Problem Statements
The users in the pilot report that occasionally, they cannot sign in to Lync 2013.

Requirements Business Goals
Contoso plans to upgrade to Lync Server 2013 during the next six months. Contoso must deploy all of the Lync Server conferencing and edge services. Contoso must also configure federation with its parent company, which is named Proseware, Inc. Proseware is located in Europe and has an Office Communication Server 2007 R2 infrastructure. Contoso must minimize hardware and software purchasing costs, while guaranteeing performance levels for all Lync Server 2013 workloads.

Planned Changes
Contoso plans to implement the following workloads in the Lync Server 2013 deployment:
- Federation
- Dial-in conferencing
- External user access
- Audio, video, and web conferencing
- The ability to host Lync meetings that have external participants

The FQDNs of the edge services will be configured as shown in the following table.
Technical Requirements
Contoso identifies the following technical requirements for the planned deployment:
☞ Only federation to Proseware must be allowed.
☞ All of the edge services must use default ports.
☞ WAN traffic and Internet traffic must be minimized.
☞ All of the user contacts stored in Lync Server 2013 must be backed up.
☞ The sales department must have a dedicated dial-in conferencing number. All other users in both the United States and Europe must use a pool of regional dial-in conferencing numbers.
☞ If a single component fails, all Lync services must remain available without the need for manual intervention. Performance degradation is acceptable during a component failure state.
☞ The conversations of all the sales department users must be archived for 30 days. The conversations of all the research department users must be archived for 90 days. No other conversations must be archived.
☞ After the migration to Lync Server 2013, all client computers will have three months to upgrade to Lync 2013. After three months, legacy clients must be blocked from accessing the Lync Server 2013 infrastructure.

Security Requirements
Contoso identifies the following security requirements for the planned deployment:
☞ All Lync Server conferences must use a unique URL.
☞ Each Internet-facing service must have one or more dedicated public IP addresses.
☞ Only the users in the human resources department must be prevented from connecting to Lync Server remotely.

QUESTION: 1
DRAG DROP
You need to identify the cause of the authentication issue for the pilot users. Which four actions should you perform in sequence? (To answer, move the appropriate four actions from the list of actions to the answer area and arrange them in the correct order.)
Run `Start-CsClsLogging`.

Run `Stop-CsClsLogging`.

Open the log file by running `snooper.exe`.

Run `Set-CsClsRegion`.

Run `Update-CsClsLogging`.

Run `Search-CsClsLogging`.

Answer:
**QUESTION:** 2
You need to configure the Lync Server 2013 infrastructure to meet the security requirements for the human resources department. The solution must minimize administrative effort. What should you do?

A. Create a new user-level external access policy.
B. Modify the Access Edge Configuration settings.
C. Create a new user-level client policy.
D. Modify the global external access policy.

**Answer:** A

**QUESTION:** 3
HOTSPOT
You need to configure the required external DNS record to support federation. The solution must meet the business goals and the technical requirements. How should you configure the DNS record? (To answer, select the appropriate options for the DNS record in the answer area.)

**Answer:**
**QUESTION:** 4
You need to recommend a backup solution to meet the technical requirements. Which tool should you include in the recommendation?

A. Export-CsUserData
B. Ocslogger
C. Snooper
D. Get-CsAdContact
E. Dbimpexp

**Answer:** A

**Reference:**
Export-CsUserData Detailed Description
The Export-CsUserData cmdlet provides a way for administrators to Export User Data and/or Conference Directory for a Lync Server Pool.
That data, which can be saved in the User Data format used by either Lync Server 2013 or Microsoft Lync Server 2010 can then be imported by using the Import-CsUserData cmdlet.
To return a list of all the role-based access control (RBAC) roles this cmdlet has been assigned to (including any custom RBAC roles you have created yourself), run the following command from the Windows PowerShell command-line interface prompt:
Get-CsAdminRole | Where-Object {$_._Cmdlets –match "Export-CsUserData"}
Lync Server Control Panel: The functions carried out by the Export-CsUserData cmdlet are not available in the Lync Server Control Panel.

**QUESTION**: 5
**HOTSPOT**
You need to ensure that the Lync Server 2013 infrastructure meets the security requirement for conferences. Which setting should you modify in Meeting Configuration? (To answer, select the appropriate setting in the answer area.)

![Image of Lync Server 2013 Meeting Configuration]

**Answer:**
QUESTION: 6
You need to ensure that the client computers that have Office Communicator 2007 R2 installed can use IM and presence and can join web conferences hosted on Lync Server 2013. The solution must minimize administrative effort. What should you do?

A. Implement Communicator Web Access Server.
B. Modify the client version policy to allow all versions of Office Communicator 2007 R2 to connect,
C. Upgrade the computers to Lync 2010.
D. Apply the latest hotfixes to Office Communicator 2007 R2

Answer: B

QUESTION: 7
The Lync Server 2013 infrastructure was implemented successfully three months ago. You need to recommend a solution to meet the technical requirements. Which cmdlet should you run?

A. Set-CsClientVersionConfiguration
B. Set-CsClientVersionPolicy
C. Set-CsMobilityPolicy
D. Set-CsDeviceUpdateConfiguration
E. Set-CsClientPolicy

**Answer:** B

**QUESTION:** 8
You need to identify the dial-in conferencing configurations required to meet the technical requirements for the sales department. Which two configurations should you identify? (Each correct answer presents part of the solution. Choose two.)

A. Create a user-level conferencing policy. Assign the conferencing policy to the sales department users.
B. Create a user-level dial plan. Assign the dial plan to the sales department users.
C. Create a new dial-in access number. Assign the dial-in access number to a dial-in conferencing region.
D. Create a user-level voice policy. Assign the voice policy to the sales department users.
E. Create a new meeting configuration. Assign the meeting to a site.

**Answer:** B, C

**Explanation:**
Note:
* The sales department must have a dedicated dial-in conferencing number. All other users in both the United States and Europe must use a pool of regional dial-in conferencing numbers.

**QUESTION:** 9
You need to identify the minimum number of Lync Server 2013 servers and supporting server roles required in each Lync site to meet the business goals and the technical requirements. How many servers should you identify? (To answer, select the appropriate number servers in the answer area.)
Pass4sure Certification Exam Features:

- Pass4sure offers over **4500** Certification exams for professionals.
- More than **98,800** Satisfied Customers Worldwide.
- Average **99.8%** Success Rate.
- Over **150** Global Certification Vendors Covered.
- Services of Professional & Certified Experts available via support.
- Free 90 days updates to match real exam scenarios.
- Instant Download Access! No Setup required.
- Price as low as $19, which is 80% more **cost effective** than others.
- Verified answers researched by industry experts.
- Study Material **updated** on regular basis.
- Questions / Answers are downloadable in **PDF** format.
- Mobile Device Supported (Android, iPhone, iPod, iPad)
- **No authorization** code required to open exam.
- Portable anywhere.
- **Guaranteed Success.**
- Fast, helpful support **24x7.**
