The C2040-928 exam is very challenging, but with our C2040-928 questions and answers practice exam, you can feel confident in obtaining your success on the C2040-928 exam on your FIRST TRY!

IBM C2040-928 Exam Features

- Detailed questions and answers for C2040-928 exam
- Try a demo before buying any IBM exam
- C2040-928 questions and answers, updated regularly
- Verified C2040-928 answers by Experts and bear almost 100% accuracy
- C2040-928 tested and verified before publishing
- C2040-928 exam questions with exhibits
- C2040-928 same questions as real exam with multiple choice options

Acquiring IBM certifications are becoming a huge task in the field of I.T. More over these exams like C2040-928 exam are now continuously updating and accepting this challenge is itself a task. This C2040-928 test is an important part of IBM certifications. We have the resources to prepare you for this. The C2040-928 exam is essential and core part of IBM certifications and once you clear the exam you will be able to solve the real life problems yourself. Want to take advantage of the Real C2040-928 Test and save time and money while developing your skills to pass your IBM C2040-928 Exam? Let us help you climb that ladder of success and pass your C2040-928 now!

QUESTION: 1

For draft items, each of the characteristics are true, except which one?

- A. Cancelling adraft is essentially the same as deleting a draft because all the changes made to the item are discarded.
- B. For draft items in a project that are ready to be published, the draft remains in a pending state until all items in the project are ready to be published.
- C. Draft items are only displayed in the Authoring portlet and are not rendered within the published website.
- D. Even if a published item has more than one draft, the Manage Drafts button is displayed only on the published version of the item.

Answer: D

QUESTION: 2

The following statements about mapping site areas, authoring templates and presentation templates are all true, except:

- A. Template maps assigned in site areas will override those set in authoring templates.
- B. Two items using different authoring templates can be displayed using the same presentation template if both authoring templates are mapped to the same presentation template.
- C. The presentation template used by each item will be determined by the authoring template the item used, and the location of the item in the site framework.
- D. A content item can be displayed using two different presentation templates. The web content library is configured to allow this.

Answer: D

QUESTION: 3

A content item named "News List" has been created in the "News" Site Area, which also contains other news related content items. The "News List" content item uses a menu component named "News Menu" to display a listing of content items in the "News" Site Area. Since the "New List" content item also exists within this site, how can the content author prevent the "News List" content item from being displayed in the menu list?

- A. Leave the "current content" field in the menu design properties section of the menu component empty so no output will be rendered.
- B. Enable the "Exclude current content from results" option in the menu component.

- C. Adjust the sort order to "ascending by type" and choose to render the menu list at the second content item.
- D. Adjust the sort order to "descending by type" and choose to render the menu list at the second content item.

Answer: B

QUESTION: 4

Abi is a developer. The HR department wants to create job postings that are made available on both the company intranet and public websites. Because the two sites look different, the postings need to have different visual representations on each of the sites. Which one of the following statements allows her to accomplish this task?

- A. Create different sets of presentation templates and authoring templates for each site area.
- B. Create different presentation templates and configure each site area to use the appropriate presentation template.
- C. Create different authoring templates and configure each site area to use the appropriate authoring template.
- D. Create different HTML components and configure each site area to use the appropriate HTML components.

Answer: B

QUESTION: 5

Tom wants to write out a fully qualified URL to a content item being viewed through a portal. Which one of the following tags allows him to retrieve the protocol, host name, and port information for the URL?

- A. `[pathcmpnt tag="base"/]`
- B. `[pathcmpnt tag="noreferrerbase"/]`
- C. `[path tag="base"/]`
- D. `[path tag="noreferrerbase"/]`

Answer: B

QUESTION: 6

Sadie has created a menu that typically returns 50-100 content items. She does not want to show the entire list at one time; instead she wants to show 10 items at a time with the ability to page-through the matches in groups of 10. How can Sadie

accomplish this task?

- A. Create a PageNavigation component and embed the component in the menu's footer using a [PageInfo] tag.
- B. Create a Page Navigation component and embed the component in the menu's footer using a [Component] tag.
- C. Create a Page Navigation component and embed the component in the presentation template that renders the menu using a [Component] tag.
- D. Check the Show items in Pages option in the menu. Select the appropriate number of items to be shown per page.

Answer: B

QUESTION: 7

An Authoring Tool component can be added to any of the technical assets listed, except for which option?

- A. Menu component
- B. Presentation template
- C. Navigator component
- D. Authoring template

Answer: D

QUESTION: 8

Jennifer is a developer creating a new authoring template to allow content creators to create job postings. One of the fields that needs to show on the authoring template is Salary. Which of the following element types is appropriate for this type of information?

- A. Text
- B. Decimal
- C. Number
- D. Currency

Answer: C

QUESTION: 9

Kellan wants to create a Breadcrumbs Navigator. To what should he set the start type?

- A. Selected
- B. Current Site Area
- C. Current Top Level Site Area
- D. Current Content

Answer: B

QUESTION: 10

The AT Printer Corp is a manufacturer of computer printers. They are building a new website using IBM Web Content Manager. The site contains pages that describes each of their product lines. When content creators are creating a product content item, they are required to include one of five preformatted company slogans as a part of the content. Which of the following actions can Jim, a developer, do to facilitate this requirement easily?

- A. Jim creates an authoring template and adds all five slogans as HTML components to the authoring template. The HTML components are then referenced in an Option Selection element on the authoring template.
- B. Jim first creates an Option Selection component in the Component library with all five slogans. Jim then adds this Option Selection component to the authoring template using Manage Elements.
- C. Jim gives content creators the Contributor role on the authoring template. Content Creators can then use Manage Elements to add a new field to each content item for the slogan.
- D. Jim first creates five HTML components in the Component library; one for each slogan. Jim can add a Component Reference element to the authoring template.

Answer: D

QUESTION: 11

Wesley is a content developer, and Lauren is a content creator. Lauren is entering products into the IBM Web Content Manager website. One requirement for the site is that each product content item can optionally have a product picture. What can Wesley and Lauren do to facilitate this requirement?

- A. Lauren adds an image field to each content item and uploads the appropriate product image to each content item. Wesley references the Image component in the presentation template.
- B. Lauren creates an Image component in the Component library for each product image. Wesley references the library components in the presentation template.
- C. Wesley adds an Image component to the product's site area. Lauren adds each
