

E20-610

EMC

CLARiiON and UNIX Advanced

Thousands of IT Professionals before you have already passed their E20-610 certification exams using the EMC E20-610 Practice Exam from ipass4sure.com. Once you start using our E20-610 exam questions you simply can't stop! You are guaranteed to pass your EMC E20-610 test with ease and in your first attempt.

Here's what you can expect from the [ipass4sure](http://ipass4sure.com) EMC E20-610 course:

- * Up-to-Date EMC E20-610 questions designed to familiarize you with the real exam.
- * 100% correct EMC E20-610 answers you simply can't find in other E20-610 courses.
- * All of our tests are easy to download. Your file will be saved as a E20-610 PDF.
- * EMC E20-610 brain dump free content featuring the real E20-610 test questions.

EMC E20-610 Certification Exam is of core importance both in your Professional life and EMC Certification Path. With EMC Certification you can get a good job easily in the market and get on your path for success. Professionals who passed EMC E20-610 Certification Exam are an absolute favorite in the industry. If you pass EMC E20-610 Certification Exam then career opportunities are open for you.

Our E20-610 Questions & Answers provide you an easy solution to your EMC E20-610 Exam Preparation. Our E20-610 Q&As contains the most updated EMC E20-610 real tests. You can use our E20-610 Q&As on any PC with most versions of Acrobat Reader and prepare the exam easily.

E20-610

QUESTION 1

What are the steps to add a disk to a Sun Solaris host online (no reboot of the host)?

- A. Drvconfig, disks
- B. Drvconfig, format, label
- C. Drvconfig, disks, devlinks
- D. Vi sd.conf, touch /reconfigure, init 6

Answer: C

Explanation:

{From a SUN OS man page:} devlinks creates symbolic links from the /dev directory tree to the actual block and

character-special device nodes under the /devices directory tree. The links are created according to specifications found in the table-file (by default etc/devlink.tab). devlinks is called each time the system is reconfiguration-booted, and can only be run after drvconfig(1M) is run, since drvconfig(1M) builds the kernel data structures and the /devices tree.

QUESTION 2

Which three [3] characteristics do Veritas Volume manager, ALX LVM, HPUX LVM, and Solstice Disk Suite have in common?

- A. Striping at the host level
- B. Provides data protection
- C. Places a unique label on each disk
- D. Groups disks together in volume groups
- E. Creates large volumes out of smaller disks

Answer: A, B, E

Explanation:

Volume Managers

Volume managers allow system administrators to perform operations on their physical devices at the operation-system level. Volume managers are typically used to provide flexibility that is not inherent in the file system or the storage system.

The operations commonly supported by volume managers fall into several categories:

1. Partitioning of LUNs into smaller logical devices
2. Aggregation of several LUNs into a larger logical device in order to provide a larger logical device
3. Striping of data across several LUNs in order to distribute I/O across many disks

A volume striped across LUNs where the LUNs themselves are striped across disks is also known as a plaid.

QUESTION 3

Which component verifies that proper cabling has been done to the Katana?

- A. SPS

E20-610

- B. Services Processor
- C. LCC Loop ID LEDs
- D. Fibre Channel Director

Answer: C

Explanation:

Katana refers to the Disk Array Enclosure (DAE2), which is a CLARiiON part. DAE2s connect to DPEs, SPEs or each other via LCCs (Link Control Cards). Thus the LCC Loop ID LEDs will indicate whether other not the enclosures are properly cabled together.

SPS= Standby Power Supply

Fibre Channel Director is a Symmetrix component

QUESTION 4

Exhibit: *** MISSING ***

What does the "Alignment Offset" function align?

- A. Lun on the raidgroup
- B. Partition on the stripe boundary of a lun
- C. Partition on the stripe size on the raidgroup
- D. Partition on the metalun stripe element size

Answer: B

Explanation:

This (or alternately diskpar on Windows OSs) aligns the partition on the stripe boundary of a lun to prevent disk crossing. The typical stripe element size (128 blocks=64KB) is smaller than most I/O, so a crossing is more likely from a misaligned file system than a large I/O. This can have a significant impact upon disk performance. Percent of data crossing = (I/O size)/(Stripe Element Size). A host-based utility (such as diskpar for Windows or fdisk for Linux) is preferred whenever there is array-based replication software in use such as SnapView, Replication Manager, etc.

QUESTION 5

What is a valid frontend SP ALPA address on CLARiiON FCC4700 series?

- A. 0 - 124
- B. 0 - 128
- C. 0 - 224
- D. 0 - 255

Answer: A

Explanation:

ALPA = Arbitrated Loop Private Address. Some addresses are reserved for the backend connections, thus the full 0-128 are not available for the front end.

E20-610

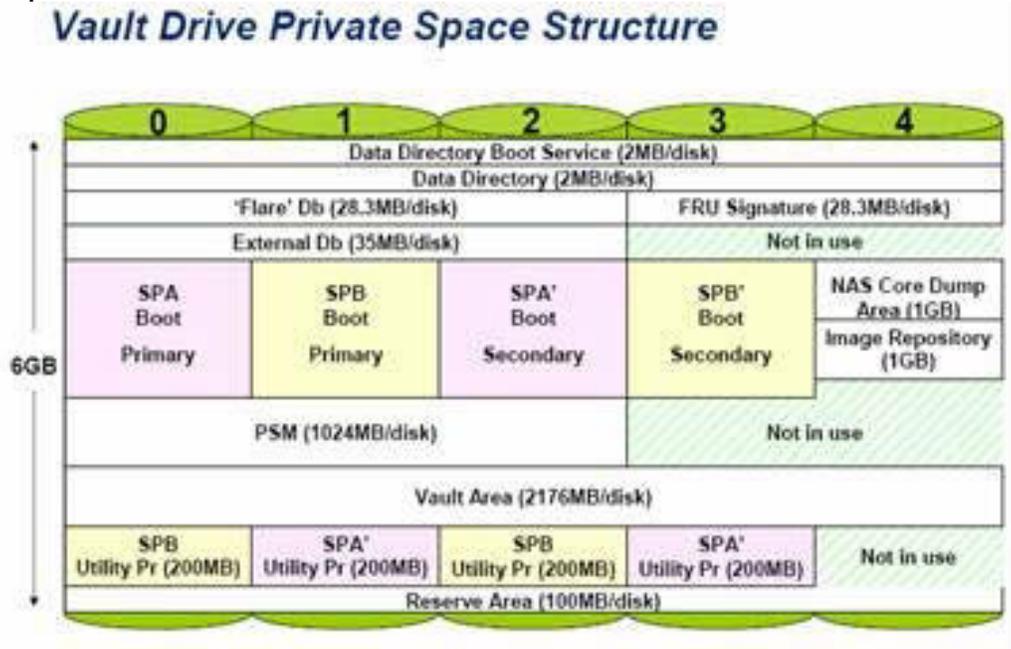

QUESTION 6

Which 2 mirror drives are the boot disks for SPB on a CLARiiON CX600?

- A. 0_0_0
- B. 0_0_1
- C. 0_0_2
- D. 0_0_3

Answer: B.D

Explanation:

SP Boot Partitions - 2826.2 MB drives 0,1,2, & 3 - Each SP will have a mirrored SP boot partition. SPA will use drive 0 & 2 (0 is the primary with 2 as the mirror) and SPB will use drives 1 & 3 (1-primary, 3-mirror).

QUESTION 7

Which user account is needed to install drivers on UNIX servers?

- A. sys
- B. root
- C. oracle
- D. Administrator

Answer: B

Explanation:

Oracle and Administrator are not default user accounts on UNIX. Root is the master, all-powerful account in UNIX.

SAMPLE EXAM

Pass4sure \$89 Lifetime Membership Features;

- Pass4sure \$89 Lifetime Membership includes Over **2100** Exams in One Price.
- **All** Pass4sure **Questions and Answers** are included in \$89 package.
- **All** Pass4sure audio exams are included **free** in \$89 package (See List).
- **All** Pass4sure study guides are included **free** in \$89 package (See List).
- **Lifetime** login access, no hidden fee, no login expiry.
- **Free updates** for Lifetime.
- **Free Download Access** to All new exams added in future.
- Accurate answers with **explanations** (If applicable).
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions, Answers and Study Guides are downloadable in **PDF** format.
- Audio Exams are downloadable in **MP3** format.
- **No authorization** code required to open exam.
- **Portable** anywhere.
- 100% success **Guarantee**.
- **Fast**, helpful support **24x7**.
