

# 642-356

## Cisco

### *Cisco Storage Networking Solutions Specialist (CSSSS)*

Thousands of IT Professionals before you have already passed their 642-356 certification exams using the Cisco 642-356 Practice Exam from [ipass4sure.com](http://ipass4sure.com). Once you start using our 642-356 exam questions you simply can't stop! You are guaranteed to pass your Cisco 642-356 test with ease and in your first attempt.

Here's what you can expect from the [ipass4sure](http://ipass4sure.com) Cisco 642-356 course:

- \* Up-to-Date Cisco 642-356 questions designed to familiarize you with the real exam.
- \* 100% correct Cisco 642-356 answers you simply can't find in other 642-356 courses.
- \* All of our tests are easy to download. Your file will be saved as a 642-356 PDF.
- \* Cisco 642-356 brain dump free content featuring the real 642-356 test questions.

Cisco 642-356 Certification Exam is of core importance both in your Professional life and Cisco Certification Path. With Cisco Certification you can get a good job easily in the market and get on your path for success. Professionals who passed Cisco 642-356 Certification Exam are an absolute favorite in the industry. If you pass Cisco 642-356 Certification Exam then career opportunities are open for you.

Our 642-356 Questions & Answers provide you an easy solution to your Cisco 642-356 Exam Preparation. Our 642-356 Q&As contains the most updated Cisco 642-356 real tests. You can use our 642-356 Q&As on any PC with most versions of Acrobat Reader and prepare the exam easily.

**QUESTION 1**

Exhibit #1:

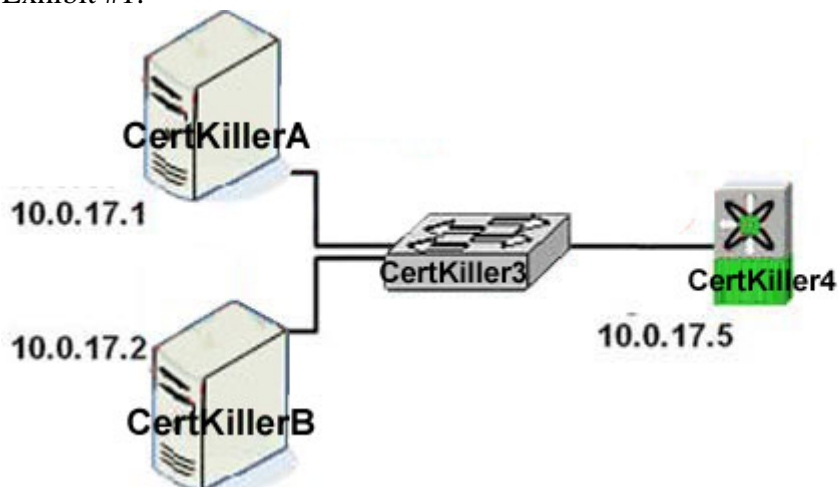

Exhibit #2:

```

CertKiller3(config)# ip access-list List1 permit tcp
                    10.0.17.2.0.0.0.0 10.0.17.5 0.0.0.0
CertKiller3(config)# ip access-list List1 deny tcp any any
CertKiller3(config)# interface CertKiller4
CertKiller3(config-if)# ip access-group List1 in

```

You work as a network administrator for Certkiller .com. You study the exhibits carefully. What is the effect of executing the commands shown in the exhibit?

- A. No hosts will be able to communicate with interface mgmt0
- B. All hosts will be able to communicate with interface mgmt0
- C. Host B will not be able to communicate with interface mgmt0
- D. Host A will not be able to communicate with interface mgmt0

Answer: D

**QUESTION 2**

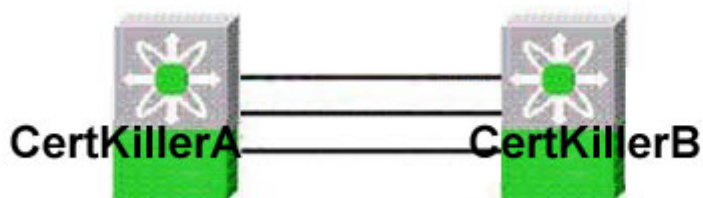

What two commands must be executed on an MDS 9000 family switch in order to change a dynamically assigned Domain ID 5 to a static Domain ID 10 for VSAN 10? (Choose two.)

- A. Certkiller 2(Config)#fcdomain domain 10
- B. Certkiller 2(Config-if)#no shut fcdomain 10
- C. Certkiller 2(Config-if)#shut fcdomain 5
- D. Certkiller 2(Config)#fcdomain restart disruptive vsan 10
- E. Certkiller 2(Config)#fcdomain domain 10 static vsan 10
- F. Certkiller 2(Config)#fcdomain restart vsan 10

Answer: D,E

**QUESTION 3**

Exhibit:

You have been asked to convert three existing ISLs into a PortChannel as nondisruptively as possible. Which approach will best accomplish this?

- A. Convert the ISLs into EISL and then place them into a PortChannel
- B. Ensure that the VSAN allowed lists on both ends of each link are identically configured, then create the three-link PortChannel
- C. Place all three ISLs into a PortChannel, because PortChannel creation is a nondisruptive operation
- D. Place one link into a single-link PortChannel and then add the other two links to the PortChannel

Answer: D

---

**QUESTION 4**

The MDS 9000 family switches use what three technologies to protect against unauthorized management access? (Choose three.)

- A. SNMPv3
- B. WEBM
- C. RMON
- D. SSH
- E. SES
- F. RBAC

Answer: A,D,F

---

**QUESTION 5**

What is the default policy when defining role-based access for a VSAN?

- A. Permit only for the default VSAN
- B. Deny
- C. Permit
- D. There is no default role policy for a VSAN

Answer: C

---

**QUESTION 6**

Certkiller .com would like to implement a low-cost traffic engineering solution that

provides a primary data path and a secondary data path that will only be used in the event of a failure in the primary path. Which of these solutions best meets the customer needs?

- A. VSAN allowed list pruning
- B. FCC
- C. FSPF link costs
- D. VOQ
- E. QoS

Answer: C

---

**QUESTION 7**

Which two of these features are characteristics of out-of-band management for the Cisco MDS 9000 Series switches? (Choose two.)

- A. Configure during the initial switch setup
- B. FCIP
- C. 10/100/1000 Ethernet connection
- D. Logical interface VSAN 1
- E. CUP Management of the switch for FICON
- F. IPFC

Answer: A,C

---

**QUESTION 8**

Which three of these terms are valid Fibre Channel topologies? (Choose three.)

- A. Arbitrated loop
- B. Point-To-Point
- C. Gigabit Ethernet
- D. Switched backbone
- E. Switched fabric
- F. Autonomous region

Answer: A,B,E

---

**QUESTION 9**

Which three options allow or enable nondisruptive upgrades? (Choose three.)

- A. Installing a license
- B. IPS module software upgrades
- C. Using the install-all command
- D. Upgrading the loader
- E. Dual supervisor modules on a Cisco MDS 95000 Series switch
- F. Using the reload command

Answer: A,C,E

### QUESTION 10

#### DRAG DROP

You work as a network technician at Certkiller .com. Your boss Mrs. Certkiller, is interested in compression modes. Match the appropriate mode with the correct bandwidth.

**Options, select from these**

Auto	mode1
mode2	mode3

**Definitions**

Default mode picks the appropriate compression scheme based on the bandwidth of the link configured in the TCP parameters in the FCIP profile	Place here
A high compression mode for low bandwidth links (less than 10 Mbps)	Place here
A fast compression mode for high-bandwidth links (greater than 25 Mbps)	Place here
A moderate compression mode for moderately low bandwidth links (between 10 and 25 Mbps)	Place here

**Options, place here**

Answer:

**Definitions**

Default mode picks the appropriate compression scheme based on the bandwidth of the link configured in the TCP parameters in the FCIP profile	Auto
A high compression mode for low bandwidth links (less than 10 Mbps)	mode3
A fast compression mode for high-bandwidth links (greater than 25 Mbps)	mode1
A moderate compression mode for moderately low bandwidth links (between 10 and 25 Mbps)	mode2

**Options, place here**

### QUESTION 11

What information does the command show flogi database provide?

- A. Verifies that attached devices are in the correct zone
- B. Displays a list of the host ports that have logged into each storage port
- C. Displays fabric login errors
- D. Verifies connectivity for attached devices

Answer: D

### Pass4sure \$89 Lifetime Membership Features;

- Pass4sure \$89 Lifetime Membership includes Over **2100** Exams in One Price.
- **All** Pass4sure **Questions and Answers** are included in \$89 package.
- **All** Pass4sure audio exams are included **free** in \$89 package (See List).
- **All** Pass4sure study guides are included **free** in \$89 package (See List).
- **Lifetime** login access, no hidden fee, no login expiry.
- **Free updates** for Lifetime.
- **Free Download Access** to All new exams added in future.
- Accurate answers with **explanations** (If applicable).
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions, Answers and Study Guides are downloadable in **PDF** format.
- Audio Exams are downloadable in **MP3** format.
- **No authorization** code required to open exam.
- **Portable** anywhere.
- 100% success **Guarantee**.
- **Fast**, helpful support **24x7**.
