

# 920-333

## Nortel

*Communication Server 1000 RIs. 5.0 Upgrades for Technicians.*

Thousands of IT Professionals before you have already passed their 920-333 certification exams using the Nortel 920-333 Practice Exam from [ipass4sure.com](http://ipass4sure.com). Once you start using our 920-333 exam questions you simply can't stop! You are guaranteed to pass your Nortel 920-333 test with ease and in your first attempt.

Here's what you can expect from the [ipass4sure](http://ipass4sure) Nortel 920-333 course:

- \* Up-to-Date Nortel 920-333 questions designed to familiarize you with the real exam.
- \* 100% correct Nortel 920-333 answers you simply can't find in other 920-333 courses.
- \* All of our tests are easy to download. Your file will be saved as a 920-333 PDF.
- \* Nortel 920-333 brain dump free content featuring the real 920-333 test questions.

Nortel 920-333 Certification Exam is of core importance both in your Professional life and Nortel Certification Path. With Nortel Certification you can get a good job easily in the market and get on your path for success. Professionals who passed Nortel 920-333 Certification Exam are an absolute favorite in the industry. If you pass Nortel 920-333 Certification Exam then career opportunities are open for you.

Our 920-333 Questions & Answers provide you an easy solution to your Nortel 920-333 Exam Preparation. Our 920-333 Q&As contains the most updated Nortel 920-333 real tests. You can use our 920-333 Q&As on any PC with most versions of Acrobat Reader and prepare the exam easily.

**Question: 1**

A customer is upgrading to Communication Server 1000E RIs. 5.0. During their database configuration, they need to ensure that the Emergency Services for Client Mobility feature is supported, but they are uncertain whether their upgrade supports this application. What prompt(s) should be enabled, and what configuration is needed to ensure this support?

- A. ESA must be disabled. Emergency Response Location (ERL), Emergency Caller Location (ECL) and internal Location Information Service (Package 336) must be programmed.
- B. ESA Package 329 must be enabled and programmed, allowing the Emergency Response Location (ERL) and Emergency Caller Location (ECL) and internal Location Information Service (Package 336) to be used.
- C. New System Type 4021 must be activated before the Emergency Response Location (ERL) and Emergency Caller Location (ECL) appear in Web Station.
- D. The addition of HA Package 410 must be activated before the Emergency Response Location (ERL) and Emergency Caller Location (ECL) appear in Web Station.

**Answer: B**

**Question: 2**

A customer is upgrading to Communication Server 1000E RIs. 5.0 and installing new 1110E, 1120E and 1140E IP Phones. The customer also wants an Expansion Module for the IP Phone 1100 Series to be used with the 1110E IP telephones. Which must occur to ensure a successful installation process?

- A. Order the correct IP Phone 1100 Series telephones that support the Expansion Module for the IP Phone 1100 Series.
- B. Follow the testing parameters after installing the IP Phone 1110E connected to an Expansion Module for the IP Phone 1100 Series.
- C. Follow the installation procedure for installing the 1110E IP telephones and connecting the Expansion Module for the IP Phone 1100 Series to the 1110E IP telephones.
- D. Determine the proper power requirements since the IP Phone 1110E connection to the Expansion Module for the IP Phone 1100 Series has a unique power requirement.

**Answer: A**

**Question: 3**

A customer has multiple Communication Server (CS) 1000Es. When calls are placed on hold, they want to provide the same music network-wide to their calls. Which configuration is needed for this support?

- A. Network Music is provided only to those calls that are transferred to the music source using Release Link Trunk over H.323.
- B. Music Trunks are installed only on the primary node, connecting to an analog TIE trunk using H.323/SIP virtual trunks. Only calls placed on hold at the primary node will receive this specific music source.
- C. Network Time Protocol (NTP) which is used to synchronize local clocks across the network to a single, accurate, third party NTP server, such as a radio clock.
- D. Music Trunks are installed on the remote nodes and connected back-to-back with an analog TIE trunk, which is auto-terminated to the primary DN of a Network Music Agent. When a music trunk is seized, the call is connected to the Audio Server through an H.323/SIP virtual trunk. A network music path is then established.

**Answer: D**

**Question: 4**

SAMPLE EXAM

### Pass4sure \$89 Lifetime Membership Features;

- Pass4sure \$89 Lifetime Membership includes Over **2100** Exams in One Price.
- **All** Pass4sure **Questions and Answers** are included in \$89 package.
- **All** Pass4sure audio exams are included **free** in \$89 package (See List).
- **All** Pass4sure study guides are included **free** in \$89 package (See List).
- **Lifetime** login access, no hidden fee, no login expiry.
- **Free updates** for Lifetime.
- **Free Download Access** to All new exams added in future.
- Accurate answers with **explanations** (If applicable).
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions, Answers and Study Guides are downloadable in **PDF** format.
- Audio Exams are downloadable in **MP3** format.
- **No authorization** code required to open exam.
- **Portable** anywhere.
- 100% success **Guarantee**.
- **Fast**, helpful support **24x7**.
