HP OpenView Operations I (7.x) UNIX

Thousands of IT Professionals before you have already passed their HP0-754 certification exams using the HP HP0-754 Practice Exam from ipass4sure.com. Once you start using our HP0-754 exam questions you simply can't stop! You are guaranteed to pass your HP HP0-754 test with ease and in your first attempt.

Here's what you can expect from the [ipass4sure](http://ipass4sure.com) HP HP0-754 course:

- * Up-to-Date HP HP0-754 questions designed to familiarize you with the real exam.
- * 100% correct HP HP0-754 answers you simply can't find in other HP0-754 courses.
- * All of our tests are easy to download. Your file will be saved as a HP0-754 PDF.
- * HP HP0-754 brain dump free content featuring the real HP0-754 test questions.

HP HP0-754 Certification Exam is of core importance both in your Professional life and HP Certification Path. With HP Certification you can get a good job easily in the market and get on your path for success. Professionals who passed HP HP0-754 Certification Exam are an absolute favorite in the industry. If you pass HP HP0-754 Certification Exam then career opportunities are open for you.

Our HP0-754 Questions & Answers provide you an easy solution to your HP HP0-754 Exam Preparation. Our HP0-754 Q&As contains the most updated HP HP0-754 real tests. You can use our HP0-754 Q&As on any PC with most versions of Acrobat Reader and prepare the exam easily.

QUESTION 1:

The hostname for a managed node has changed. Will OVO automatically detect this?

- A. Yes, OVO internally maps the new hostname to the old hostname as stored in the OVO database. This is because the IP address is used as a unique identifier.
- B. No, if the hostname or the IP address of a managed node has been modified, this change also needs to be made in OVO.
- C. Yes, but only new messages from these hosts will be intercepted. You must change the hostname in the Modify Node window before you distribute templates or install a new OVO agent version on that managed node.
- D. No, OVO will only detect the change after both the Management Server processes and Managed Node processes have been stopped and restarted.

Answer: B

QUESTION 2:

Which two tools can be used to test OVO pattern matching? Choose 2 that apply.

- A. opcsrvtst
- B. opcmomchk
- C. Use the test option in the template screen of the OVO GUI.
- D. opcconfig
- E. opcpat

Answer: C, E

QUESTION 3:

To correctly configure the proxy setting before calling URLs in the embedded web browser of the Java GUI _____.

- A. use the Embedded Web Browser Setting dialog box
- B. do nothing. The correct flag is set by default for all platforms
- C. change the flag in the file /opt/OV/www/htdocs/ito_op/embedded_web
- D. do nothing if the NCSA-Apache web server is used. It is automatically installed and configured with the OVO installation

Answer: A

QUESTION 4:

Where can the OVO configuration data be stored?

- A. ISAM files
- B. Oracle RDBMS
- C. Ingres RDBMS
- D. Sybase RDBMS

Answer: B

QUESTION 5:

From the Java GUI, it is NOT possible to print _____

- A. message browser contents.
- B. message properties.
- C. application definitions.
- D. application output.

Answer: C

QUESTION 6:

Which of the following statements regarding history download is TRUE? Choose one answer.

- A. New filtering criteria for the history download are NOT available for selection from the GUI.
- B. You can specify the option -copy to keep the history messages in the database when using opchistdwn.
- C. You can selectively upload data from files using opchistupld+filter criteria.
- D. It is NOT possible to specify exclusions (e.g. -not_node).

Answer: A

QUESTION 7:

All message attributes can be used as filter criteria for checking incoming messages. Which of the following statements is NOT TRUE?

- A. An incoming message must have the same values for all attributes that are specified in a condition to create a match. Regarding message attributes the specified attributes are checked as AND conditions.
- B. If an attribute is NOT specified, the filter ignores this attribute in the incoming messages and compares only the other attributes.
- C. If more than one value is specified for an attribute, only one of the values must match. The specified values within one attribute are checked as OR conditions.
- D. When defining conditions for a log file encapsulator template, the user needs to

specify only the message text pattern and the message group,

Answer: D

QUESTION 8:

Which three of the following are management aspects which are covered by OpenView Operations? Choose 3 that apply.

- A. Print Management
- B. Operations Management
- C. Backup Management
- D. Integrated Network & System Management
- E. Management by Exception

Answer: B, D, E

QUESTION 9:

Which three of the following can be monitored by OpenView Operations agents? Choose 3 that apply.

- A. application logfiles
- B. Databases processes
- C. DMI events
- D. MPE/iX Console Messages

Answer: A, B, D

QUESTION 10:

The OpenView Operations Agent collects performance metrics with the help of the coda process. This coda process is_____.

- A. the last release of the OV Performance Agent integrated into the OVO agent
- B. a replacement for the OV Performance Agent that must be purchased separately
- C. an add-on module that has to be installed on the top of the OVO agent
- D. a component included as part of the OVO agent

Answer: D

QUESTION 11:

When the OVO agent is started, the embedded performance component starts collecting metrics automatically on the managed node. What is the best way to disable AND de-register the embedded performance component?
