HP Routing Switch Essentials version 3.0

Thousands of IT Professionals before you have already passed their HP0-603 certification exams using the HP HP0-603 Practice Exam from ipass4sure.com. Once you start using our HP0-603 exam questions you simply can't stop! You are guaranteed to pass your HP HP0-603 test with ease and in your first attempt.

Here's what you can expect from the ipass4sure HP HP0-603 course:

*** Up-to-Date HP HP0-603 questions designed to familiarize you with the real exam.**
*** 100% correct HP HP0-603 answers you simply can't find in other HP0-603 courses.**
*** All of our tests are easy to download. Your file will be saved as a HP0-603 PDF.**
*** HP HP0-603 brain dump free content featuring the real HP0-603 test questions.**

HP HP0-603 Certification Exam is of core importance both in your Professional life and HP Certification Path. With HP Certification you can get a good job easily in the market and get on your path for success. Professionals who passed HP HP0-603 Certification Exam are an absolute favorite in the industry. If you pass HP HP0-603 Certification Exam then career opportunities are open for you.

Our HP0-603 Questions & Answers provide you an easy solution to your HP HP0-603 Exam Preparation. Our HP0-603 Q&As contains the most updated HP HP0-603 real tests. You can use our HP0-603 Q&As on any PC with most versions of Acrobat Reader and prepare the exam easily.

QUESTION: 1
Which statements are true of Telnet access to the routing switch? Choose two.

A. It is available at factory default settings and may not be disabled.
B. It is available as soon as IP is enabled on the first interface.
C. Telnet access to the routing switch may be disabled at any time.
D. It must be manually enabled after configuration of the first IP interface.

Answer: B,C

QUESTION: 2
Which is instrumental in determining the natural mask of an IP address?
A. The number of "1" bits in the subnet mask
B. The value in the first octet of the address
C. The value in the first two octets of the address
D. The number of hosts supported on the connected network

Answer: B

QUESTION: 3
Which two statements are valid rules for static port trunking on the 9300 series routing switch?

A. All port members must be on the same module and must also be contiguous.
B. An 8-port module can support two 4-port trunks or four 2-port trunks, but not a single 8-port trunk.
C. All port members must belong to the same VLAN.
D. The port members of a multi-slot trunk must be equally divided between two modules.

Answer: C,D

QUESTION: 4
Which statements are true with regard to the use of named ACLs? Choose two.

A. Use of named ACLs increases the total number of ACLs that may be defined.
B. A 9300 series routing switch can support either named or numbered ACLs, but not both simultaneously.
C. The definition of named ACLs causes the creation of a new configuration context.
D. Named ACLs are defined within the interface configuration level rather than at the global configuration level.

Answer: A,C

QUESTION: 5

What two actions are required to define an OSPF router as an area border router?

A. Define OSPF interfaces that are assigned to different area IDs.
B. Define interfaces that do not have OSPF enabled.
C. Define two or more area IDs within the OSPF router configuration context.
D. Enter the command “ospf area type = border” within the OSPF configuration context.
E. Enter the command “redistribution ospf” within the OSPF configuration context.

Answer: A,C

QUESTION: 6
What is the primary benefit of the T-Flow management module? It:

A. enables EP modules to be placed in the same chassis with M4 modules.
B. brings sFlow and NetFlow capabilities to the M4 module platform.
C. enables M4 modules to support jumbo Ethernet frames.
D. enables EP modules to support jumbo Ethernet frames.

Answer: B

QUESTION: 7
When comparing Enhanced Performance modules with M4 modules, which two (2) statements are true? EP modules:

A. support traffic collection and analysis in hardware; M4 modules do not.
B. and M4 modules may be combined in the same chassis.
C. require one management module for every four slots; M4 modules require one management module per chassis.
D. support higher port density than M4 modules.

Answer: A,D

QUESTION: 8
How is sFlow implemented in the 9300 series routing switch?

A. in EP module hardware.
B. in M4 module hardware.
C. in an optional software add-on.
D. in EP and M4 module hardware.

Answer: A

QUESTION: 9

SAMPLE EXAM

Pass4sure $89 Lifetime Membership Features;

- Pass4sure $89 Lifetime Membership includes Over **2100** Exams in One Price.
- **All** Pass4sure Questions and Answers are included in $89 package.
- **All** Pass4sure audio exams are included **free** in $89 package (See List).
- **All** Pass4sure study guides are included **free** in $89 package (See List).
- **Lifetime** login access, no hidden fee, no login expiry.
- **Free updates** for Lifetime.
- **Free Download Access** to All new exams added in future.
- Accurate answers with explanations (If applicable).
- Verified answers researched by industry experts.
- Study Material **updated** on regular basis.
- Questions, Answers and Study Guides are downloadable in **PDF** format.
- Audio Exams are downloadable in **MP3** format.
- **No authorization** code required to open exam.
- **Portable** anywhere.
- 100% success ***Guarantee***.
- **Fast**, helpful support 24x7.
