

000-806

IBM

*IBM WebSphere Application Server Network Deployment
V6.1, Advanced Administration*

Thousands of IT Professionals before you have already passed their 000-806 certification exams using the IBM 000-806 Practice Exam from ipass4sure.com. Once you start using our 000-806 exam questions you simply can't stop! You are guaranteed to pass your IBM 000-806 test with ease and in your first attempt.

Here's what you can expect from the ipass4sure IBM 000-806 course:

- * Up-to-Date IBM 000-806 questions designed to familiarize you with the real exam.
- * 100% correct IBM 000-806 answers you simply can't find in other 000-806 courses.
- * All of our tests are easy to download. Your file will be saved as a 000-806 PDF.
- * IBM 000-806 brain dump free content featuring the real 000-806 test questions.

IBM 000-806 Certification Exam is of core importance both in your Professional life and IBM Certification Path. With IBM Certification you can get a good job easily in the market and get on your path for success. Professionals who passed IBM 000-806 Certification Exam are an absolute favorite in the industry. If you pass IBM 000-806 Certification Exam then career opportunities are open for you.

Our 000-806 Questions & Answers provide you an easy solution to your IBM 000-806 Exam Preparation. Our 000-806 Q&As contains the most updated IBM 000-806 real tests. You can use our 000-806 Q&As on any PC with most versions of Acrobat Reader and prepare the exam easily.

Question: 1

Which statement is true about designing highly available infrastructures based on WebSphere Application Server ND V6.1 clusters?

- A. A stand-alone server topology provides the greatest amount of process isolation and therefore is the most effective building block in combination with other stand-alone servers for building a highly resilient cluster based infrastructure.
- B. A horizontal scaling topology provides the greatest opportunity to implement efficient use of single machine processing power so that should there be a failover in that environment, there will be sufficient capacity available for the remaining nodes to pick up the workload from the failed node.
- C. A vertical scaling topology provides the greatest opportunity to implement efficient use of machine processing power so that should there be failover in that environment, there is sufficient capacity available for the remaining cluster members to pick up the workload from the failed cluster member.
- D. A horizontal scaling topology provides the greatest amount of process isolation and therefore is the most effective building block in combination with other stand-alone servers for building a highly resilient cluster based infrastructure.

Answer: C

Question: 2

An administrator is configuring a cluster bus destination on a cluster with five members on five different physical machines. The administrator will configure two messaging engines which may be run on any of the five cluster members. What is the simplest configuration for the messaging engines' data stores that still ensures proper fail over?

- A. A file-based data store in the config directory that is kept in sync on all cluster members by the deployment manager
- B. A single remote database accessible by all cluster members with one schema to be shared by the messaging engines
- C. A single remote database accessible by all cluster members with two schemas
- D. Two remote databases accessible by all cluster members

Answer: C

Question: 3

A WebSphere Application Server ND V6.1 administrator has been asked to set up cache replication for an application. The application team wants to make sure it does not lose any cache data that is generated. What would make losing cache data least likely to happen?

- A. Full group replication
- B. Enable disk offload
- C. Push only
- D. Flush to disk

Answer: B

Question: 4

A WebSphere Application Server ND V6.1 administrator recently added a new cluster member. When the administrator checked the status of the servers in the cluster, they noticed the cluster showing a state of partially started. What does that mean?

- A. All cluster members are running, but the node agents have not been started.

SAMPLE EXAM

Pass4sure \$89 Lifetime Membership Features;

- Pass4sure \$89 Lifetime Membership includes Over **2100** Exams in One Price.
- **All** Pass4sure **Questions and Answers** are included in \$89 package.
- **All** Pass4sure audio exams are included **free** in \$89 package (See List).
- **All** Pass4sure study guides are included **free** in \$89 package (See List).
- **Lifetime** login access, no hidden fee, no login expiry.
- **Free updates** for Lifetime.
- **Free Download Access** to All new exams added in future.
- Accurate answers with **explanations** (If applicable).
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions, Answers and Study Guides are downloadable in **PDF** format.
- Audio Exams are downloadable in **MP3** format.
- **No authorization** code required to open exam.
- **Portable** anywhere.
- 100% success **Guarantee**.
- **Fast**, helpful support **24x7**.
