

# 000-316

## IBM

### *IBM WebSphere Integration Developer V6.1*

Thousands of IT Professionals before you have already passed their 000-316 certification exams using the IBM 000-316 Practice Exam from [ipass4sure.com](http://ipass4sure.com). Once you start using our 000-316 exam questions you simply can't stop! You are guaranteed to pass your IBM 000-316 test with ease and in your first attempt.

Here's what you can expect from the [ipass4sure](http://ipass4sure.com) IBM 000-316 course:

- \* Up-to-Date IBM 000-316 questions designed to familiarize you with the real exam.
- \* 100% correct IBM 000-316 answers you simply can't find in other 000-316 courses.
- \* All of our tests are easy to download. Your file will be saved as a 000-316 PDF.
- \* IBM 000-316 brain dump free content featuring the real 000-316 test questions.

IBM 000-316 Certification Exam is of core importance both in your Professional life and IBM Certification Path. With IBM Certification you can get a good job easily in the market and get on your path for success. Professionals who passed IBM 000-316 Certification Exam are an absolute favorite in the industry. If you pass IBM 000-316 Certification Exam then career opportunities are open for you.

Our 000-316 Questions & Answers provide you an easy solution to your IBM 000-316 Exam Preparation. Our 000-316 Q&As contains the most updated IBM 000-316 real tests. You can use our 000-316 Q&As on any PC with most versions of Acrobat Reader and prepare the exam easily.

**Questions: 1**

After some initialization, a long running business process needs further input from the client. The process should only wait for a certain period of time. If that time has passed without further user input, default processing should start. Which BPEL construct can most effectively handle this situation?

- A. Receive choice with a timeout element
- B. Receive activity with a parallel wait activity
- C. Receive choice with a subsequent wait activity
- D. Receive activity with expiration properties defined

**Answer: A**

**Questions: 2**

Given the selector in the Exhibit, which statement is true regarding the selector and its configuration?

- A. The selector configuration is incorrect because Component4 is not referenced.
- B. The selector configuration is correct and Component1 will be invoked on April 27, 2008.
- C. The selector configuration is incorrect because Component3 is used incorrectly in the component schedule.
- D. The selector configuration is correct and Component1, Component2, Component3, and Component4 must all have the same interface.

**Answer: B**

**Questions: 3**

An integration developer needs to access an HTTP SOAP header in a mediation flow. How should an XPath HTTP SOAP header?

- A. /headers/SOAPHeader
- B. /SMOHeader/SOAPHeader
- C. /headers/Envelope/Header
- D. /SMOHeader/Envelope/Header

**Answer: A**

**Questions: 4**

A business rule applies a graduated discount rate based on an input customer's total purchases over the past year. How should the business rule be implemented?

- A. As a rule set
- B. As a rule group
- C. As a decision table

D. As a business rule bean

**Answer: A**

**Questions: 5**

In a mediation flow, the call out Response node's fail terminal is not wired and an unmodeled fault is received. What is the expected behavior of the mediation flow?

- A. A mediation runtime exception will occur.
- B. A mediation business exception will occur.
- C. A mediation configuration exception will occur.
- D. Since the fail terminal is not wired, the mediation flow stops execution without raising any exception.

**Answer: A**

**Questions: 6**

Why would an integration developer select the "Requires Own" option on a BPEL activity?

- A. To force a retry of the current activity in case of an error
- B. To force a retry of the previous activities in case of an error
- C. To prevent a retry of the current activity in case of an error
- D. To prevent a retry of the previous activities in case of an error

**Answer: D**

**Questions: 7**

An insurance company is building a state machine for accident claims processing. Before a claim can be paid, an accident investigator must sign off on any filed claims. If an investigator rejects a claim, the claim should be returned to the agent that filed the claim for further processing. Which statements describe an approach that should be considered?

- A. Create states called Claim and Investigate. Transition from Investigate to Claim when a claim is rejected.
- B. Create states called Claim, Investigate, and Reclaim. Transition from Investigate to Reclaim when a claim is rejected.
- C. Create states called Claim and Investigate. Transition from Investigate to Terminate when a claim is rejected. Restart the state machine on a rejection and return to Claim.
- D. Create a state called Process. Transition to a human task called Investigate for the investigator. Transition from the human task to Final state. Restart the state machine on a rejection and return to Process.

**Answer: A**

**Questions: 8**

In which situation is a failed event generated in case of a runtime exception in the called component?

- A. A business process calls a one way service asynchronously.
- B. A business process calls a request/response service asynchronously.
- C. A one-way business process is initiated by the Business Flow Manager API client.
- D. A request/response business process is initiated by the Business Flow Manager API client.

**Answer: A**

**Questions: 9**

An integration developer wants to restrict who can start a business process when using the BusinessFlowManager API to start the process. What is one way this can be accomplished?

- A. Restrict the role BPEAPIUser on the ProcessContainer application to the designated group.
- B. Add a human task assigned to the designated group of potential starters on the Administration tab of the processes properties.
- C. Add a human task assigned to the designated group of potential starters on the Authorization tab of the respective receive activity.
- D. Put a standalone invocation task assigned to the designated group of potential starters in front of the process in the assembly editor.

**Answer: C**

**Questions: 10**

Which two conditions must be met in a cyclic flow within a business process?

- A. There must be at least one cycle.
- B. Only one activity is executed at a time.
- C. Activities with more than one incoming link must have a join condition.
- D. There must be exactly one start activity (that is one activity directly enclosed in the cyclic flow with no incoming link.)

**Answer: B, D**

**Questions: 11**

Why would an integration developer uncheck the "Enable persistence and queries of business relevant data" flag on a BPEL activity in a long-running business process?

- A. To prevent emission of CEI events
- B. To prevent emission of audit log events
- C. To improve performance by avoiding activity related data to be persisted to the database
- D. To prevent monitoring of activity related business data with the BPC Observer application

**Answer: C**

**Questions: 12**

The process shown in the Exhibit returns the value of a global variable "number" to the client. The variable is initialized by an assign activity with 0. Snippet1 and Snippet2 each increase the value of "number" by 1. Snippet3 in the event handler increases "number" by 10. Each wait activity waits for 30 cseconds. During execution of the first wait activity an event is sent to the processes' event handler.

### Pass4sure \$89 Lifetime Membership Features;

- Pass4sure \$89 Lifetime Membership includes Over **2100** Exams in One Price.
- **All** Pass4sure **Questions and Answers** are included in \$89 package.
- **All** Pass4sure audio exams are included **free** in \$89 package (See List).
- **All** Pass4sure study guides are included **free** in \$89 package (See List).
- **Lifetime** login access, no hidden fee, no login expiry.
- **Free updates** for Lifetime.
- **Free Download Access** to All new exams added in future.
- Accurate answers with **explanations** (If applicable).
- **Verified answers** researched by industry experts.
- Study Material **updated** on regular basis.
- Questions, Answers and Study Guides are downloadable in **PDF** format.
- Audio Exams are downloadable in **MP3** format.
- **No authorization** code required to open exam.
- **Portable** anywhere.
- 100% success **Guarantee**.
- **Fast**, helpful support **24x7**.
